Warning: wear safety glasses, do not look directly into uv lights, do not operate with a low battery, never store batteries inside your car in extreme temperatures, store battery at room temperature for best results

Instruction. Note: twist the handle to zoom the UV light in or out

1. Add dye to the system following dye injection instructions
2. Disconnect injector from the system and clean any excess dye left around the service port
3. Turn engine and A/C system on
4. Allow dye to circulate throughout the system
5. Turn on UV light
6. WEAR PROTECTIVE GLASSES
7. Search for a bright yellow glow where the system is leaking. Clean the area around leak after repair.
